## ONE HUNDRED DOLLARS REWARD.

RANAWAY from the subscriber on the 29th  
of October last, a negro man slave named

B O B,

about 20 years of age, five feet nine inches high  
straight limbed and well formed; said slave hath  
an impediment in his speech which prevents him  
readily replying to a question. He commonly  
wears ear-rings. He took with him a variety of  
good clothing, a description of which is unneces-  
sary, as it is probable he has changed them. He  
has been frequently seen about town since he ab-  
sconded, and in all probability is now secreted by  
his mother, Winney Brown, formerly the slave  
of Mr. JOHN MUIR, late of this town, but now  
said to be free. The above reward will be paid  
for securing said Negro BOB, in any goa, and  
a further reward of TEN DOLLARS for the dis-  
covery of those who have been accessory to his  
concealment.

Captains of vessels, &c. are forewarned at  
their peril, not to take him away.

The blessings of democracy were most abundantly upon Savannah on Wednesday last, when his charge to the Grand Jury was the exposition of the rights of man. The jury did not tender thanks to his honor, but that his charge should be printed to the jury his words should be published; and an altercation ensued in his ordering the jury to retire. He was rendered motionless by the extraordinary procedure, when he drew from his pocket a pistol and threatened to shoot him if he would not retire. The jury, whether they were intimidated or not, citizens of Savannah were obedient to the new resolutions; they retired to the jail and released the prisoners from the lodgings of the judge. He was arrested and conducted to prison. His honor probably thought that in recommending the rights of man, Tom Paine had done the same in writing to his countrymen as the almanac maker, and he deplored the conduct of the jury. CHARLESTON, May 1.  
...tract of a letter from a gentleman in  
...Savannah, to his friend in this city, dated  
...the 26th ult.  
...We have had a very considerable com-  
...in our city for the last two or three  
...days. His Honor Judge Bowen, Judge  
...of the District Court, took a passionate  
...and committed our Grand Jury to  
...; and last night his honor was obliged  
...to appear at the same rendezvous. The  
...have, a few hours since, been liberat-  
...but the Judge remains in very close  
...confinement. The reasons for these strange  
...proceedings are, that the Judge delivered  
...very inflammatory charge to the Jury,  
...relating to the legislature, and contemn-  
...ing the juridical conduct of the state; and  
...declaring for the immediate emancipation  
...description of persons I need not men-  
...The Jury replied with much spirit  
...and dignity—ending with a presentment  
...his honor, as an unfit person to sit on  
...the bench, with a positive refusal to co-op-  
...ate with him in any business of the court.  
...his aroused the ire of the Judge; he  
...drew pistols, threatened lives, and ordered  
...the "contumacious rascals" to jail. There  
...are many particulars which at present I  
...are not time to communicate."  
The blessings of democracy were shed  
...most abundantly upon the citizens of Sa-  
...vannah on Wednesday last. Judge Bowen,  
...his charge to the Grand Jury, made an  
...enthusiastic exposition of the rights of man.  
...The Jury did not tender the homage of their  
...thanks to his honor, nor did they request  
...that his charge should be made public. He  
...resented to the Jury his wish that his charge  
...should be published; they took the stud-  
...and an altercation ensued, which resulted  
...in his ordering the Jury to jail. The Sher-  
...iff was rendered motionless by this extra-  
...ordinary procedure, when his honor took  
...from his pocket a pistol, and threatened to  
...shoot him if he would not bid the jury in  
...which they were conducted. The  
...citizens of Savannah met, and passed a va-  
...riety of resolutions; they afterwards went  
...to the jail and released the jury; thence to  
...the lodgings of the judge, whom they seiz-  
...ed and conducted to prison.  
...his honor probably thought there was no  
...in recommending liberty and equali-  
...Tom Paine had done all this in his  
..."Rights of Man," another Tom had done  
...the same in writing to his friend Banneker,  
...the almanac maker, and on all occasions  
...deplored the condition of "suffering  
...humanity." Although this was sound phi-

losophy from both the Toms, yet it seem-  
ed heresy in a Georgia Judge, and he has  
been condemned by a town meeting to pass  
his time in prison. Of this Judge Bowen,  
all we know is, that he is a furious demo-  
crat; that he came with notions some years  
ago from Rhode-Island, and was made a  
Judge of the Superior Court in Georgia.  
Democracy will be found to be a mighty  
foolish thing in any country, but in these  
southern states it will prove more than sui-  
cidical. The federal republicans have long  
feared that every thing would be consumed  
by our demagogues. If these political  
incendiaries were to perish alone, in their  
own revolutionary fires, there would be no  
harm done, (as Gen. Washington express-  
ed himself in his letter to Mr. Carroll) but  
we have many interests at hazard; the  
conflagration will be universal, and the  
people of this country will, we fear, disco-  
ver when it is too late, the impossibility of  
setting limits and boundaries to democratic  
principles. Like the freshes in our great  
rivers, they will spread over the land, not  
fertilizing, but destroying every thing in  
their course. The people of France, the  
people of Holland, the people of Switzer-  
land and the people of Italy, have all been  
enslaved by the operation of democratic  
principles. To be sure, the demagogues  
who led and misled them with professing  
what they never felt, with talking about re-  
publicanism, have been made consuls, pro-  
consuls, and got good places under govern-  
ment; but what have the people got?—  
They have got despotism, with all its hu-  
milations; they have been made hewers  
of wood, and drawers of water. Let the  
people of America look to these things—  
demagogues have carried them to the banks  
of the Rubicon, let them halt there, and  
think for themselves.

FRIDAY, MAY 11.  
[We give the following verbatim as we re-  
ceived it, not vouching for its authenticity.]  
Mister Snodin—Dear Sir,  
These sue lins cumeth to let you no, in  
confidence, that I am alive at present, as  
well as sirkumstances in these hard times  
and skarsity of muny will purmit. I dont  
find the collection of Fins so popular as I  
expected, tho I aynt had so many applea-  
shuns to the seat of honner, puls by the  
eers and tweeks by the nose as som sip-  
pose, yet I cunfes rather more than I  
wanted; all which I have born with pa-  
shunce and christen fortetude, upon the  
prenciple that when a gentlemen is engaged  
in thengs of a patriotik nater, he shoudent  
mind trifles.  
It is true I have acted rather illegally,  
or so, in sum instances, but have had the  
good fortin to escape with hole bones—the  
business of the hatters boys was only a  
sort of black joke.  
I sarve from disinterested motives, as a  
good patriot for honer only, considring  
the office a honorable one, and that I am  
in the road to purfurment.

urs execkuted for hi treeson, as I believe  
Im apinted kulektor for life, with power of  
namin my sicknesssir.

A Correspondent of yours, a few days  
since, made some mention of a "non-de-  
script animal" that has appeared among  
us, and which some have designated a  
Collector of Militia Fines. I have read a lit-  
tle in Goldsmith's "Animated Nature,"  
yet I am not learned enough to know how  
to class it; but as I understand that since  
you gave publicity to this communication,  
the animal has changed its colour, from a  
particular process, I would, to ascertain  
whether it may not be of the species of the  
Camelion, instead of the animal tribe, re-  
commend a repetition of the experiment,  
though with a deeper dye.  
"SOLDIER BOO!"  
Some of the Feds ridicule the idea of  
the existence of a Salt Mountain in our  
newly acquired territory—but all who sym-  
patize in the "the throws of suffering hu-  
manity," should hope in its reality—for af-  
ter a few more musters, many of them will  
be found—"not worth their salt."  
JEFFERSON'S MARCH.  
IMPORTANT.  
In the New York Mercantile Advertiser,  
received this morning, under date of May 8, is the  
following article.

"Captain Miller of the brig Margaret, from  
Halifax, informs that just before his departure a  
British Government schooner had arrived at Sid-  
ney in 19 days from Guernsey, with the impor-  
tant intelligence that another revolution in  
France had restored Louis XVIII to the throne  
of his ancestors! By what singular means Bon-  
aparte was superseded we have not been able  
to learn. Captain M. says, the Printer at Ha-  
lifax (Mr Gales) was preparing an Extra Sheet,  
containing the particulars of the event for publi-  
cation; and that he could have obtained a copy  
by waiting about an hour longer, which the tide  
would not permit him to do.  
The King of England was living, and in a state  
of convalescence."  
The sch'r. Citizen, arrived at New York on  
Tuesday last, from Gibraltar, brings intelligence  
that Lord Nelson had cautioned British vessels  
against proceeding up the Mediterranean, as he  
was about to bombard Algiers. Mr. Pinckney, A-  
merican Ambassador at Madrid, had given in fi-  
nal information that the terms of quarantine at  
Cadiz was reduced to fifteen days. Capt. Bain-  
bridge and officers were liberated through the in-  
terference of Mr. Gavino, United States Consul.  
A report was in circulation that the French had  
imposed an embargo at Leghorn, in February.  
(N. Y. Mer. Adv.)  
We take the following extracts from a new  
work lately received from England, the produc-  
tion of Mr. Thomas Holcroft, the Dramatist, of  
which we have had but a cursory glance. It is  
entitled, "Travels from Hamburg through  
Westphalia, Holland, and the Netherlands to  
Paris."  
OF BONAPARTE.  
"Concerning the religious opinions of Bona-  
parte, it is said, no man can form any sound  
judgment from his discourse: he might at one  
moment be imagined an infidel, at another a  
deist, and the next, perhaps, a christian. He is  
said to have told Dupuis, that he did not believe  
such a man as Jesus Christ ever existed. To  
Monge, an avowed infidel, who was expressing  
his disbelief of eternal punishments, the Consul  
said, after reciting the names of various great men  
who had believed in the christian religion, and  
examples of others who in their last moments had  
changed their opinions from fear, that he, Monge,  
would certainly die a true believer. He appears  
to be rather a fatalist than a necessarian; for he  
believes, or affects to believe, in his favourable  
destiny.  
To contemplate greatness, to study till we un-  
derstand it, and when circumstances agree, to  
make it our model, can only be blamed when  
greatness is sullied by vice; but to become its  
proffessed ape has something in it that shows a  
want of original power. There are various  
traits, public and private, that discover Bona-  
parte to have attempted to copy Alexander,  
while he was in Egypt, Caesar, during his Italian  
campaigns, and Charlemagne, since he has assum-  
ed to himself the office and the power of a ruler.  
Suddenness of action he believes to be his pe-  
culiar secret, by which to render success a cer-  
tainty."  
OF MOREAU.  
"There are many of the enemies of Bona-  
parte, who have wished to engage Moreau in raising  
a faction, of which he should be the head, but  
which he has constantly and firmly refused. He  
has answered—"If the people are, as you repre-  
sent, anxious for a change, let them speak and  
act for themselves, I neither desire the risk, the  
honors, nor the vices of such an attempt." In e-  
very society Moreau is praised, and disadvantage,  
only courted with Bonaparte.  
Among the heads, etched as studies for young  
artists, is that of Moreau, in several sizes; and  
under one of them is inscribed "The head of a  
man." In the plot to assassinate Bonaparte on  
the parade, as I have mentioned, there were per-  
sons who insinuated that Moreau had taken a  
part; and rumour said, the First Consul sent for  
him, and said, "I have heard you have joined  
assassins: I give no credit to any such tale:  
I know you to be incapable of a base action:—  
but such is the effervescence of mind among the  
military, that you will greatly oblige me if you  
will pass two or three days at your country  
seat."  
With this request Moreau willingly complied;  
but carefully returned the third day, that no mis-  
construction by party, might be put on his con-  
duct."

THE DISTRESS OF THE TIMES.  
Never, surely Mr. Editor, was any thing like  
it; every where we hear complaints, grumblings,  
murmurings! No money to be had; no credit;  
no confidence; paper depreciating; no discount;  
banks breaking; manufactures at a dead stand  
still; and nothing talked of but ruin, ruin,  
RUIN!  
If I go to eat my chop, I must pay two pence  
for half a farthing's worth of cheese—Why,  
landlord, your cheese is very dear—"Yes, Sir,  
but consider the distress of the times!"—At the  
coffee house I must pay four pence for a dish of  
coffee; but then; the distress of the times.

Fifty Dollars Reward.  
RAN AWAY from the subscriber, on Mon-  
day last, the 7th current, a mulatto man named  
WILLIS,  
by trade a carpenter. He is upwards of six feet  
high, well made and bow legged: had on a coat  
of grey coating, uncommonly short for him, with  
a pair of pantaloons of twilled olive coating, a good  
deal worn and mended, and an osnaburgh shirt;  
he took no other clothes with him, and will prob-  
ably be dressed in those above described, altho'  
he may exchange them to avoid detection. He  
was seen to pass Jesse Hill's about four miles  
above the Spotted Tavern, on the night of the  
7th inst. on his way I expect to the neighbour-  
hood of Francis Whiting, Esquire, of Fauquier,  
where he was brought up and lately lived; but  
I think it not improbable he may endeavour to  
find his way towards Alexandria or some of the  
seaport towns in that direction. I am perfect-  
ly inflexible of the cause of his desertion,  
unless he apprehended an intention of sending him  
to a distant part of the country, as I had not em-  
ployment for him as a carpenter, and wished to  
hire him. I will give Thirty Dollars reward  
for delivering him to me at this place, if taken  
within 30 miles: Fifty Dollars, should he be  
taken up in or near Alexandria or George Town  
and brought home, or a proportionable sum for  
any distance short of those places.

## REANIMATION.

WHEN the most important functions of life are suspended, and those who are invalids by impudence, inheritance, accident or disease, are tottering upon the brink of the grave, it is not in despair that relief is to be found: There is a medicine which has restored thousands from infirmity and misery to health and happiness, which is

### THE AROMATIC LOZENGES OF STEEL.

Since this excellent medicine was first discovered by Dr. Bardwell, several thousand females have experienced its salutary effects; many of whom had been reduced to the brink of the grave having used every remedy recommended as specific in those complaints, and had made every application to the faculty that could be obtained. The following recent case is selected from a numerous list.

From Mrs. Eleanor Wadsworth, Providence, (R. I.)

Sir,  
WE received yours and with much pleasure comply with your request, as my daughter has certainly received very great benefit from Dr. Bardwell's Aromatic Lozenges of Steel.

In the winter of 1802 my daughter, who is in her 17th year caught a very severe cold, which with the violent fever which accompanied it, confined her to her room upwards of four months; during this period we paid for Doctors bills and consultations 150 dollars. The fever left her in the most deplorable, and debilitated state with hardly any use of her limbs, so that we were obliged to carry her from the bed to the chair. Being strongly persuaded by the Doctor we went to Ball-Town Springs and stayed the season, and thought she gained considerable strength by the use of the waters; but by the fatigue of the passage (having very rough weather) she became as weak and nervous as before. During the last winter her whole nervous system has been so irritable, and her spirits so low and depressed, that death to her was desirable. In the latter end of January we saw an Advertisement recommending the Lozenges of Steel for similar complaints, we immediately purchased a packet of them, and before the whole of them were taken, they evidently produced a change in her system, which no medicine before had been able to effect. We sent for two more packets. It is now fourteen days since she began to mend; she has laid aside her crutches, has been twice on horse back, and if the weather should prove favorable we intend coming to Peekskill early in April to stop until we go to Ball-Town Springs: from there we will send you our address, where with pleasure we will satisfy any enquiries.

Price one Dollar per Packet.

Particular directions for their use are sealed up with each but as the great benefit to be derived from them can only be secured by having them genuine, the public are requested to observe that the name of Thomas Stokes & Co. is affixed to each packet, without which mark of authenticity they are not genuine.

The Lozenges of Steel, are only to be had, in Alexandria, of Messrs. R. & J. GRAY.

WHO HAVE ALSO ON HAND, A SUPPLY OF Family & Patent Medicines,

—CONSISTING OF—  
Chambaud's Antasthmatic Lozenges; Ague and Fever Drops; Antibilious Pills; Annodyne Effence for Head Aches; Reanimating Solar Tincture; Dr. Bardwell's genuine Eye Water; Atkinson's Effence of Mustard; Scotch Ointment for the Itch; Tooth Ach Drops; Aromatic Lozenges; Effence of the Woods, &c. &c.

Dr. Hunter's genuine Antibilious Pills,

For the prevention and cure of Yellow, Bilious and Putrid Fevers.

Every experienced physician knows what dangerous disorders arise from a redundancy of bile in the habit; however salutary a due secretion of this fluid may be, yet a diffusion of it in the circulation is known, from its putrescent qualities, to bring on sudden and fatal fevers. The unparalleled success of Dr. Hunter's Antibilious Pills, in curing, and particularly in preventing this dreadful disease, is universally known in the islands, and has induced the proprietor to appoint agents in all the mercantile towns in the United States, for the accommodation of the public. The Antibilious Pills are therefore, in an especial manner, recommended as a preventative, deterring the notice of all persons going to the West India Island, or any of those places infected with these fevers. Dr. Hunter has every possible reason, that can result from long and extensive experience, for believing that a dose of these pills, taken once every fourteen days, during the prevalence of our fall fevers, will prove an infallible preventative, and that, if taken in the early stages of these fevers, their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, may be used with safety by persons in every situation and of every age.

In sickly times and places a dose should be taken once a fortnight, and if there is reason to apprehend personal danger, once a week.

Observe that the signatures of Messrs. Tho. Stokes and Co. is affixed to each box, without which mark of authenticity they are not genuine.

Dr. Atkinson's genuine Effence of Mustard.  
Rheumatism in every stage, instantly submits to its penetrating powers, which has succeeded in curing the most desperate cases of rheumatism, gout, lumbago, sciatica, neuralgia, palsy and complaints of the stomach, after various medicines have proved ineffectual. It is prepared in pills, and also in a fluid state. The pills are particularly serviceable in flatulencies and indigestion, and by their salutary operation, promote perspiration, and gradually undermine the most obstinate rheumatism; and at the same time, invigorate the debilitated constitution. The fluid effence is a remarkable active embrocation, necessarily used with the pills, and as generally excites a tingling sensation; it removes the causes of pain, by bringing on a circulation in the parts affected; by this means, frozen limbs, the arms sprains and bruises, old strains and contusions, are generally cured by a few applications. The genuine is distinguished from counterfeits, by the signature of Thomas Stokes and Co. being affixed to each bottle; without which mark of authenticity, none are genuine.

### The genuine Scotch Itch Ointment.

The only medicine that cures this disagreeable disease, by one application, to many thousands having experienced its efficacy; it is unnecessary to add any more arguments in its favor, but to caution the public that the name Thomas Stokes and Co. is affixed to each box, without this mark of authenticity, none are genuine.

### Dr. Bardwell's genuine Eye Water.

A sovereign remedy for all diseases of the Eyes; speedily removes inflammation, dimness, itching, and films it never fails to cure those maladies which frequently succeed the measles, small-pox, and fever; and is an unparalleled strengthener of a weak sight.

### Dr. Hunter's genuine Antibilious Pills.

An agreeable and certain preventive of the predisposition to inflammatory and malignant fever, which prevails at particular seasons of the year. The rapid and increasing demand from every part of the United States, and the West India islands, is the best evidence of their superior excellence.

### CHAMBAUD'S Antasthmatic Lozenges.

A radical cure for coughs, colds, asthma and consumptions, difficulty of breathing, &c. &c.

Mr. CHAMBAUD, the sole proprietor of this medicine, has the satisfaction to announce that they have been the means of relieving many persons in a most precarious state of health. In common colds this medicine produces so salutary a perspiration that they generally are eradicated in a few hours. Coughing, being prolonged by that convulsive symptom termed the tickling in the throat, it shortens its duration by promoting sleep and strengthening the constitution. Pulmonary complaints, affecting the breast and lungs; those affected with them experience an almost immediate relief. Asthma and confined consumptions have repeatedly been eradicated by them. Infants in the whooping cough, and women during pregnancy, may take them without the least fear of danger, and with the greatest expectation of relief, nor can it be administered at an improper season.

Dr. BARDWELL'S Annodyne Effence, for all kinds of Head Aches.

THE renowned virtues of the Annodyne effence, is now so generally known, that it is no presumption in the Proprietor, to say, that Head Aches, arising from whatever cause, or however violent, instantly submit to its penetrating powers. This invaluable Annodyne, has frequently succeeded after the best advice, and every other remedy had failed; by its salutary operation, it infensibly promotes circulation and perspiration, and thereby prevents the return of the most obstinate periodical head aches.

### SPRING PHYSIC.

DR. HUNTER'S Anti-Bilious Pills are unquestionably proved by ample experience to be the most effectual remedy, at the same time the most innocent, pleasant, and convenient medicine for the cure of fever, scorbutic eruptions, leprosy, and other disorders originating from a corruptive state of the blood. The remarkable cure of Mr. Elliston, of Albany, who had been twelve years tormented with a most distressing scorbutic complaint, as also that of Thomas Johnston, a labouring man, in the service of Mr. Van Rensselaer, who was afflicted with a most horrid leprosy, must have convinced every one who has read the particulars of these cases, besides which, a variety of proofs of their efficacy, authenticated by persons of character and respectability are open to the examination of every inquirer. These must naturally be supposed to have their due weight, and supercede the necessity of any further comment from the Proprietor, yet, he presumes to assert, that the real merits of this vegetable preparation will, on a fair trial, plead more forcibly its own recommendation than any thing which can be said of it.

Where also may be had, Atkinson's Worm destroying Lozenges.—These Lozenges not only destroy worms where they exist, but effectually prevent their return. Those families who have followed Dr. Atkinson's advice, and used them in the Spring and Fall among their children, as their common physic, have now the happiness to find those children, which appeared sickly and consumptive, in the bloom of health, being entirely delivered from those dreadful vermin.

Sparta, Mount Pleasant, March 27, 1803.

We hereby certify, that our daughter, about 4 years of age, has been very unwell and in a bad state of health for these last two years. We always suspected that she had worms, and had given her several worm medicines, without any good effect, so that we despaired raising her till of late. Hearing of some surprising cures being performed by Atkinson's worm destroying Lozenges, we purchased a packet of them, and administered them according to the directions. The first dose brought away only one worm, and with it a quantity of slimy, offensive matter; the second brought away four monstrous thick worms nearly half a yard in length; and the third dose, a large quantity of a slimy, offensive matter. The vomiting and purging, with which she was frequently troubled have ceased—her appetite has become regular, and has over since enjoyed a perfect state of health, for which we are entirely indebted to this excellent medicine.

### DR. BARDWELL'S

Re-animating Solar Tincture, or Pabulum of Life. Of the cure of Consumption and Asthma, Disorders in the Stomach and Bowels, Convulsions, Cholera and Diarrhoea.

Cautious investigation, and attentive enquiry into the nature and laws of the animal economy, having long confirmed an opinion in the mind of the inventor, that all the maladies abovementioned, derive their origin from the same cause, indirect debility, or consequent weakness, the analogy of their source, by a natural inference suggested the idea of their removal by the same means; the result was the discovery of the Re-animating Solar Tincture, which after having been employed in thousands of instances, with the most unexampled and astonishing success, has obtained the warmest approbation of characters of the first respectability, both in and out of the profession; the proprietor can confidently recommend as one of the most certain, efficacious, and pleasant remedies ever discovered by man or offered to the world.

Price, dollar, and 1 dol. and 50 cents per bottle. The large bottle contains nearly two of the small. Copious Directions for their use are sealed up with each bottle.

Dr. Stoughton's Cordial Bitters, faithfully prepared at the original warehouse, London.

This incomparable medicine has stood the test of universal approbation in Europe for near an hundred years, in the cure and prevention of, Loss of appetite, bad digestion, windy cholera, urticaria, hysterical vapours, faintness and trembling, ague and fever, depressed spirits, foul breath, worms in children, scurvy, obstructions or stoppages, bilious, fevers, sick fits, &c. &c.

These Bitters being now generally used in taverns and public places, and universally acknowledged by all who have tried their effects, to be far superior to the compositions formerly imposed in imitation thereof; the proprietor hath reduced the price to those who purchase largely above fifty per cent. Directions will be pacted on the Bottles, and which will be also sealed, in order to detect counterfeits and upstart pretenders, who will all tell you, they make the genuine Stoughton's Bitters; and in order to impose their trash on the public, they sometimes copy a part of the true advertisement and directions.

Specific Drops for Deafness. FOR many years have these drops been used with amazing success, in DEAFNESS & HARDNESS of HEARING. Those who are unacquainted with the great relief afforded by this valuable medicine, are earnestly recommended to trial. Few are the cases in which it has not been of great service, and very often effected a complete cure.

Copious directions for the use of the Specific Drops for Deafness are sealed up with each bottle. Price one dollar. June 13.
